"The Liquidator, Quackerjack, Wolfduck and other F.O.W.L. agents have been looting various parts of the city. These robberies may be part of a larger plan by F.O.W.L. to seize control of St. Canard. LET'S GET DANGEROUS!

It's crime time and Darkwing Duck is on the case. The webbed wonder must leap through the streets of St. Canard and blast the bad guys with noxious knockout gas. Help him track down the lair of F.O.W.L.'s fiendish agents and prepare for Darkwing's greatest challenge ever.

There is no stopping Darkwing once he is on the trail, but F.O.W.L. plans to try! The heart in the upper left corner of the screen is a health meter and it shows Darkwing Duck's strength. Each time Darkwing gets hit by one of F.O.W.L.'s agents, he will lose one quarter of the health meter. When all four quarters of the heart are gone, Darkwing will lose a chance and he will have to start his search again.

If Darkwing is lucky enough to track down the lair of an arch-villain, he must try to blast him with his gas gun. It will take many shots of gas before Darkwing can capture him.

Once the agent has been captured, Darkwing can begin his search for the next vile villain.

HANG IN THERE, DARKWING.

Leaping from rooftops and hanging from ledges is all in a day's work for the daring Darkwing Duck. In order to outwit his enemies, Darkwing must often put himself in some pretty precarious positions.

To grab a ledge or a hook, press the **B** button to jump toward the hook or ledge and Darkwing will automatically grab hold of it.

When Darkwing is done hanging around, just press **down** on your control pad and he will let go.

To jump down from a rooftop or ledge, press **down** on your control pad and press the **B** button. Darkwing will jump down from the ledge.

SUCK GAS, EVILDOER!

In the never-ending battle against crime, it is always handy to have a trick or two up your sleeve. Now, thanks to those wondrous scientists at S.H.U.S.H., Darkwing's gas gun has been adapted to use three new types of gas.

HEAVY GAS

A blast of heavy gas will immediately fall to the ground and explode. The explosion will send a shock-wave across the floor in both directions. (Heavy Gas uses 2 units of gas energy.)

THUNDER GAS

When Thunder Gas is used, two bolts of lightning are launched from Darkwing's gas gun. Each bolt travels forward at a 45 degree angle. (Thunder Gas uses 2 units of gas energy.)

ARROW GAS

Arrow gas will cause a gaseous arrow to be shot out of Darkwing's gas gun. These arrows can be shot against walls to help Darkwing overcome obstacles. (Arrow Gas uses 3 units of gas energy.)

SUCK GAS, EVILDOER!

To use these special gas adaptors, Darkwing must first find them. Launchpad has used the Thunderquack to zoom ahead of Darkwing and place the adaptors at key locations within the city. It's up to Darkwing to locate the adaptors and add them to his arsenal.

NOTE: Darkwing can only carry one adaptor at a time.

Once Darkwing collects a special gas adaptor, you can activate it by pressing the **SELECT** button on your control pad. When you do, a number will appear below the special gas indicator in the upper left-hand corner of the television screen. This number shows how much gas energy Darkwing's gas gun has left. Press the **B** button on your control pad and Darkwing will now fire out the special gas.

To refill the gas energy of the gas gun, Darkwing must collect gas energy containers. These containers can be found by blasting enemy agents and picking up the containers as they drop them.

SPECIAL ITEMS

As Darkwing clobbers his way past F.O.W.L.'s heinous henchmen, they may drop a variety of items that will aid Darkwing in his journey. Just have Darkwing touch an item and he will add it to his collection.

Small First Aid Kit

This kit restores 1/4 of Darkwing's health.

Large First Aid Kit

This kit restores all of Darkwing's health.
